

Pullman Parks ADA Plan 2014

Based on September 26, 2014 tour with Mark & Vicki Leeper
from the Disability Action Center

Reaney Park

2014-2015 Improvements

- Add an ADA stall on Morton Street (in turnout area) to improve access to pool, playground, spray pool, and add a hard surface picnic spot with table and barbeque pit. **2015**
- Repave or concrete existing low asphalt path areas, widening at western playground edge (access point from front parking lot). **2015**
- Check new 15 stall parking lot to see if it needs an ADA stall, if only one is present it needs to be a van space. **10 years**
- Reconstruct existing water fountain and add high/low component. **5 years**
- Relocate existing ADA stall in parking lot (west end) to Lentil Lane (east end) next to turnaround and add van accessible space. **2015**

Future Improvement

- Construct ADA Restrooms with accessible route to second shade structure at ADA picnic site and water fountain. **5 years**

Pullman Parks ADA Plan 2014

Based on September 26, 2014 tour with Mark & Vicki Leeper
from the Disability Action Center

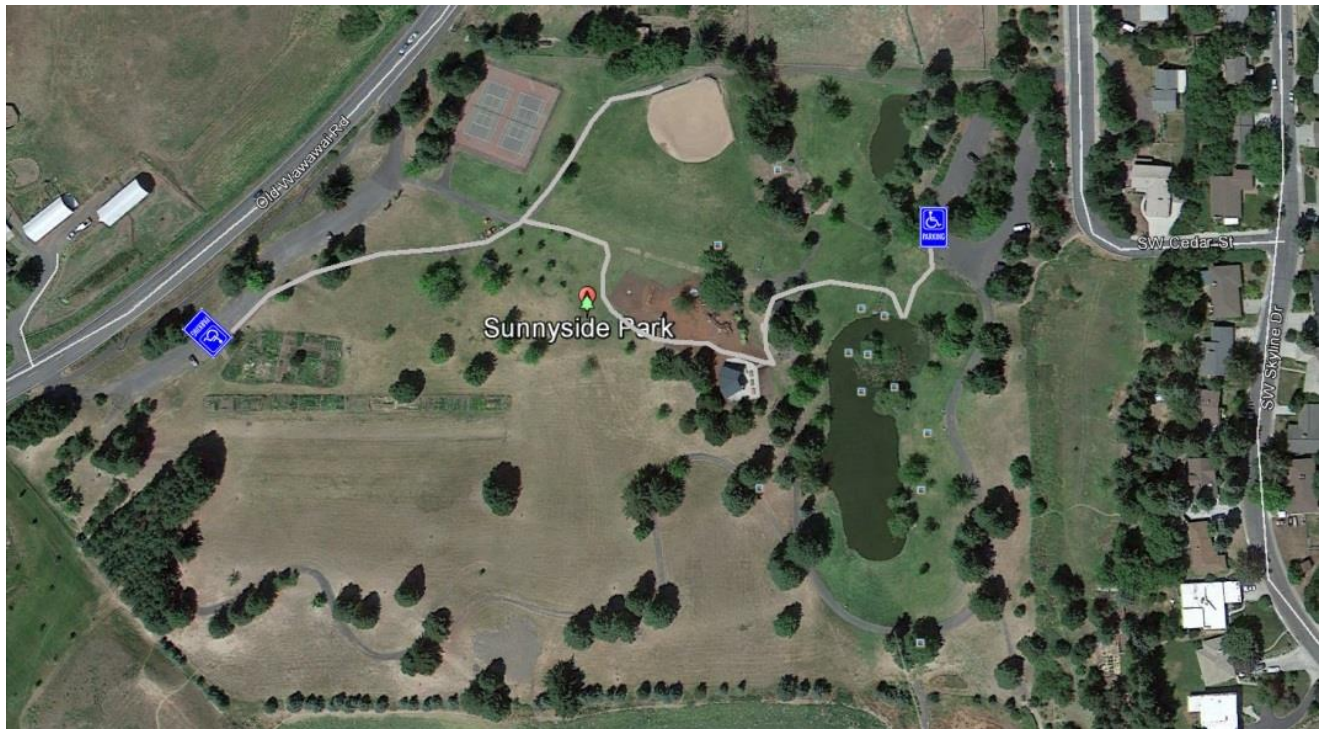

Sunnyside Park

2014-2015 Improvement

- Relocate ADA stalls to south end of lower Cedar St. parking lot with appropriate signage and striping. **8 years**

Future Improvements

- Construct a new path (accessible route) from relocated stalls across drainage (need bridge) just north of upper pond at spillway and then over to the restroom area. **5 years**
- Create an access route from bathroom area to shelter southwest of restroom facility. **5 years**
- Add concrete path from shelter to edge of playground. **5 years**
- Put ADA stall in upper parking area off Wawawai Road and access path to shelter, ballfields, and playground. **20 years**

Pullman Parks ADA Plan 2014

Based on September 26, 2014 tour with Mark & Vicki Leeper
from the Disability Action Center
